

YOUR VISION IS OUR QUEST

Quest strives to be the premier product development partner for organizations in the medical, instrumentation, and laboratory science markets. We establish strong relationships by providing outstanding technical expertise, innovation, and superior value. Our partners consist of those seeking commercialization of a vision.

OUR HISTORY

Quest was founded in 1995 by a group of product development specialists with strong backgrounds in engineering and the physical sciences. The core team, including veterans in the medical device arena, has worked together for over 20 years. We have help bring products to market with our commitment to providing exemplary customer satisfaction through efficient problem solving, thoughtful design, and timely delivery.

OUR EXPERIENCE

Over the last 20 years we have built a solid foundation that provides the knowledge to carry out your projects, small or large, with excellent time management and within your budget. Our capabilities in these markets give you the confidence to grow your business by leveraging our expertise.

“Quest focuses on developing long-term relationships with their clients, providing value at critical junctures and pointing out where efficiencies and savings can be found.”

Howard Merry, President, Lexicor Medical Technologies

OUR MARKETS

**In Vitro Diagnostic,
Drug Delivery Systems,
Medical Device Development,
Biotechnology Instrumentation,
Analytical Instrumentation,
& Therapeutic Devices**

OUR TEAM

Quest is able to provide every client with experience and innovation, with a core team that has helped bring over 300 products to market with their desire to pioneer, solve, design, and deliver. Our team has a strong background in physics, analytical chemistry, molecular biology, optics, metallurgy, and the traditional engineering disciplines of electrical, mechanical, and software. Quest employees hold over 35 patents, 40 publications, and 60 years of education.

“They provided a very strong & adaptive interdisciplinary team.”

Rob Parry, COO, BioMicro Systems Inc.

OUR TECHNOLOGIES

Since 2006, technology transfer has become an integral part of Quest Product Development, providing a means for our partners to develop and commercialize early stage technologies.

We have been awarded over \$7M in grants to fund technology development by focusing on organizations with IP portfolios closely aligned with Quest’s technical and business development skills.
